

We are so excited to be hosting another year of summer fun with our School-Age Summer Camp program! After the success of last summer, we have made thoughtful adjustments to continue advancing the program while keeping it engaging, enriching, and fun. Our goal is to provide a summer experience that balances structure and creativity, allowing children to stay curious, confident, and connected while enjoying a well-deserved break from the school-year routine.

ACADEMICS

Our Summer Camp follows a specially created curriculum built around a variety of academic and explorative weekly themes designed to keep children engaged while still embracing the excitement of summer. These themes encourage curiosity, creativity, and hands-on learning while supporting continued academic growth. Some examples include STEAM, creative engineering, nature and environmental exploration, problem-solving challenges, art and design, and community and leadership.

Each day, children will participate in an advanced activity that may include sensory exploration, academic enrichment, nature-based learning, crafts, and collaborative projects. In addition to these daily group activities, each child will have their own personal binder to work on individually at a self-paced level. This encourages independence, time management, and responsibility while allowing children to review and retain concepts learned throughout the school year. All activities are thoughtfully designed to appropriately challenge campers while keeping learning engaging and enjoyable.

A SPECIAL SPACE

As we continue operating in our LR building, we wanted to provide our Summer Camp students with a space designed just for them. We have decided to bring in a handcrafted modular classroom, which will be located to the right of our building. This dedicated space allows our school-aged campers to enjoy a more independent and age-appropriate environment while still remaining connected to our school community. The modular classroom offers added flexibility, comfort, and room for hands-on activities, group projects, and creative exploration—making it an exciting and valuable addition to our Summer Camp experience.

ENROLLMENT

Our Summer Camp Program does have **very limited availability**. Registration will be offered on a first come, first serve basis. In order to secure your child's spot you will need to:

- Fill out the registration form
- Send your non refundable \$75 registration fee and a 1st and last week deposit to schuvilinfo@gmail.com.
- Summer registration will **CLOSE on March 15th** or sooner if the program reaches maximum capacity.
