

OUR GOAL

Our goal is to provide a learning environment where children are supported to learn, grow, and thrive through a thoughtful balance of child-led learning and teacher-centered instruction. Our advanced curriculum goes beyond typical standards to ensure each child leaves our program confident and well-prepared for future academic success. This foundation is supported by our nine core value pillars: **Confidence, Empathy, Knowledge, Honesty, Respect, Integrity, Gratitude, Responsibility, and Community**. These values are intentionally woven into daily learning experiences to support whole-child development and help children grow not only academically, but also into kind, capable, and thoughtful individuals.

DAILY STRUCTURE AND ROUTINE

Each day is carefully structured to incorporate both child-led learning, inspired by the Montessori method, and small-group, teacher-centered instruction. While children are encouraged to explore, make choices, and follow their interests, they also thrive within a consistent daily schedule that provides structure, predictability, and a sense of security. Child-led learning offers many benefits, including fostering independence, encouraging empathy, and cultivating a genuine love of learning. While this approach is deeply valued, we also recognize that when most children enter kindergarten, they transition into more teacher-directed classrooms. For this reason, we intentionally balance both methods within a predictable routine to ensure children feel confident, capable, and well-prepared for future academic environments.

CIRCLE TIME

Every class participates in a daily morning Circle Time, where children review monthly focus topics such as letter recognition, letter sounds, advanced colors, 3D shapes, sight words, and other foundational skills. We also incorporate a bi-weekly Spanish immersion Circle Time, led by a fluent teacher who conducts the entire session in Spanish. This immersive experience allows children to naturally acquire new words and phrases through songs, stories, and everyday conversation in a low-pressure, engaging environment.

DAILY LESSONS & ROTATIONS

Every age group does a daily lesson that focus on one or more of our core academic areas: literacy, math, art, and fine or gross motor development. Each lesson is intentionally designed using concepts and materials approximately one year above typical state requirements to ensure children are continually growing, challenged, and prepared beyond standard expectations. These lessons incorporate a variety of learning styles, including worksheets, hands-on activities, small-group instruction, and interactive centers. In addition to their daily lesson, the Preschoolers have a daily rotation. Rotations are mini lessons that span a wide range of subjects, including science, social studies, foreign languages, physical education, cooking, sensory exploration, life skills, theater arts, music, and more.

END OF THE YEAR FUN

PORTFOLIOS

At the end of the year, every child in our program receives a personalized learning portfolio that documents their growth, discoveries, and experiences over time. Rooted in Reggio Emilia principles, these portfolios make learning visible through photos, teacher observations, artwork, writing samples, and project documentation. They allow teachers to reflect on learning, guide curriculum planning, and honor each child's unique journey.

Our curriculum also includes intentional monthly activities—such as name-writing, tracing, guided drawings, and handprint projects—to clearly showcase each child's progress and improvements throughout the year.

GRADUATION

Graduation is a special milestone for our Preschoolers as they complete our Preschool Program and prepare for Kindergarten. To honor their hard work and growth, we host a Graduation Ceremony where families are invited to join us in celebrating this exciting achievement.

Each graduating child will be provided with a cap and gown to wear for the ceremony. They will also receive a diploma and a special, teacher-chosen award that highlights a unique quality or academic accomplishment. This celebration honors each child's individual journey and creates a meaningful, memorable moment for both children and families as they close out this important chapter of early learning.

ENROLLMENT OPTIONS

All of our programs follow the same high-quality curriculum, ensuring your child receives engaging, age-appropriate lessons each day. Our extended day options give children extra time for hands-on activities, additional circle time, outdoor play, creative projects, and a relaxed lunch and rest period. These longer days provide additional opportunities for exploration, socialization, and discovery—helping your child grow, learn, and have fun in a nurturing environment.

The non-refundable registration fee and last month's (May '27) tuition is due in order to reserve your spot. Monthly payments will then continue to be due on the 1st of every month. The activity and supply fee is due by August 1st. Payments can be made via Zelle to schuvilinfo@gmail.com. Please note that space is limited at this time. Spots will be offered in the order that registration forms and payments are received.

Registration closes on June 1, 2026, or when the program reaches maximum capacity

Half Day Preschool 3 - 4 Year Olds

AM | Drop off 8:15-8:30 | Pick up 11:15-11:30
PM | Drop off 12:15-12:30 | Pick up 3:15-3:30

OUR PROGRAM

Q: What makes The Schoolhouse Preschool different from other programs?

A: The Schoolhouse Preschool was thoughtfully designed from the ground up to be unlike any other early childhood environment in our area. Our classrooms are intentionally built with defined learning spaces that guide children through hands-on exploration, creativity, movement, and focused academic time throughout their day. We draw inspiration from educational approaches such as Reggio Emilia, encouraging curiosity, independence, problem-solving, and learning through meaningful experiences rather than worksheets or passive play. Every detail — from the classroom layout to our daily rotations — is purposefully created to build confidence, kindergarten readiness, and a true love for learning in a warm, nurturing setting.

HEALTH & SICK POLICY

Q: What is your sick policy?

A: We follow general pediatrician and state guidelines for returning to school after illness. Children must be **fever-free, diarrhea-free, and vomit-free for 24 hours** before returning. Another example would be for strep, children may return after **three doses of antibiotics**. Our families are wonderful about keeping children home when they suspect illness, and our staff is very proactive in monitoring symptoms to help prevent the spread of sickness within the daycare.

BEHAVIOR, EMOTIONS, AND GUIDANCE

Q: How do you handle tantrums, misbehavior, or crying spells?

A: We approach behavior with care, patience, and developmentally appropriate strategies. We typically have 2–5 teachers or administrative staff out of ratio, allowing us to provide one-on-one support when needed.

- Tantrums and misbehavior are addressed through redirection and calm guidance.
- Crying spells are met with comfort, hugs, and extra attention.
- If a behavior impacts another child, we use short “quiet times” away from the situation to talk through feelings, explain the impact of actions, and help children learn appropriate responses.

Our goal is always to help children feel supported while learning important social and emotional skills.

TEACHER-TO-CHILD RATIOS

Q: What are your teacher-to-child ratios?

A: We prioritize safety and quality care by maintaining ratios that are smaller than those recommended by the state of Indiana whenever possible. In addition to staff counted in ratio, we consistently have 2–5 team members available out of ratio to step in, support classrooms, and help ensure a safe, nurturing environment at all times.

INFANTS: 4 CHILDREN TO 1 CAREGIVER
TODDLERS: 5 CHILDREN TO 1 CAREGIVER
2 YEARS: 5 CHILDREN TO 1 CAREGIVER
30–36 MONTHS: 7 CHILDREN TO 1 TEACHER
3 YEARS: 10 CHILDREN TO 1 TEACHER
4 YEARS: 12 CHILDREN TO 1 TEACHER
5 YEARS / KINDERGARTEN: 15 CHILDREN TO 1 TEACHER

POTTY TRAINING

Q: Does my child need to be potty trained to join this program?

A: We do require children to be fully potty trained before starting. At this age, we spend a lot of time in structured learning, rotations, and group activities, and being potty trained helps children feel more independent and confident throughout their day.

If your child is close but not quite there yet, we’re always happy to talk through where they’re at and help you come up with a plan to get them ready.

OUTDOOR PLAY AND WEATHER POLICIES

Q: When do children play outside?

A: Outdoor play is very important to us, and we prioritize getting children outside daily whenever weather permits. Each class is allotted a 30-minute outdoor recess. In addition, whenever possible, children go outside for lessons, rotations, and additional afternoon free play after rest time. Children are able to go outside as long as the real-feel temperature is 32°F or warmer, there is no heat advisory in effect, and it is not raining.

Q: What happens when outdoor play isn't possible?

A: On days when we cannot go outside, we offer engaging indoor gross-motor activities so children can still move, explore, and stay active.

Q: What does outdoor play look like?

A: Outdoor time supports physical development, social skills, emotional regulation, and overall well-being. Weather permitting, children enjoy structured and free-play opportunities outside each day. We are thrilled to be partnering with Kompan, an innovative playground equipment company whose designs are developed alongside medical professionals and include built-in learning elements and curriculum-based play features.

We are also excited to begin phasing in an Outdoor Learning Academy, which will incorporate nature-based learning, hands-on exploration, and extended outdoor experiences in a safe and developmentally appropriate way.

PICK-UPS AND DROP-OFFS

Q: How do pick-ups and drop-offs work?

A: We offer a convenient half-circle drive for easy drop-off and pick-up, where staff will safely walk children out to you. Families are also welcome to park and come into the secure vestibule if they prefer.

REST TIME

Q: Where do children take their rest time?

A: Rest time takes place right in their classroom on individual cots, allowing them to relax in a familiar and comfortable environment.

Q: Is it mandatory for my child to nap if they are in the full-time program?

A: Per state regulations, children under the age of 5 are required to rest quietly on their cot for at least 30 minutes. If a child does not fall asleep, we gently transition them to quiet activities such as books, coloring, or puzzles so they can still have a calm reset before the afternoon.

ENROLLMENT

Q: If we enroll in the half-day program, are we able to switch into the full-time program mid-year or vice versa?

A: Families enrolled in the half-day program are welcome to transition into the full-time program mid-year as space allows. However, due to classroom planning and staffing, we are not able to switch from full-time to half-day once the school year has begun.

SUPPLIES

Q: What do I need to supply my child with for your program?

A: You don't need to supply anything! All classroom materials, learning supplies, and daily essentials are thoughtfully provided and built into your tuition and/or supply fee so children have everything they need for a successful day. We do ask that each child brings a backpack to transport belongings, worksheets, and projects home, along with a complete change of clothes stored in a labeled, gallon-sized bag to be kept in their backpack.

MEALS AND SNACKS

We're excited to introduce our new food program at The Schoolhouse in partnership with Gourmet Gorilla, a leader in fresh, thoughtfully prepared school meals. This program brings chef-crafted breakfasts, lunches, and snacks made with high-quality ingredients, plenty of fruits and vegetables, whole grains, and kid-friendly recipes that are both nutritious and delicious.

Gourmet Gorilla is known for sourcing responsibly, supporting local farms when possible, and designing menus that meet strict nutrition standards without sacrificing flavor. Beyond meals, their program includes a matching nutrition curriculum that helps children learn where food comes from and why healthy choices matter — turning mealtime into another opportunity for learning.

It's also important for families to know that we already allocate a significant portion of our budget to providing healthy meals, generous portions, fresh fruits and vegetables, and organic options whenever possible through our current food program and staff. The small additional fee of approximately \$2 per day simply covers the difference in cost between what we already invest in meals and the enhanced program provided through Gourmet Gorilla.

For families who choose to participate, we will set a simple monthly fee based directly on how many days per week your child attends. This keeps pricing predictable and aligned with your child's schedule. Families who prefer not to participate are welcome to send their child with their own meals and snacks from home — we simply want to offer a convenient, high-quality option for those who would like it.

This partnership allows us to continue prioritizing wellness and nutrition while enhancing the overall Schoolhouse experience for our children. We are very excited about this enhanced program!

2026 - 2027
